

Name: Nithin Kumar Chennavoina

Mobile: +91-7075016326

Email id: chnithinkumar786@gmail.com

Objective:

To secure a challenging position where I can effectively contribute my skills as Software Professional, demonstrating competent technical & analytical skills.

Skill / Experience Summary

- Over all 2.5+ Years of experience in Software industry. ● Having 2.5+ years of experience in setting up CI/CD pipelines for (**Azure webapp / Azure function app / SQL / Azure Synapse/ Docker / Azure Kubernetes**)
- Expertise in AWS and Azure cloud platforms, infrastructure automation, containerization, and security integration across the SDLC.
- Experience in Automation of Build and Release activities in a DevOps environment such as (DEV, TEST, STAGE & PROD).
- Extensive experience around 2 Years in Installation, Configuration and Management of JBOSS and Tomcat, Wildly, WebLogic admin activities
- Extensive experience of 2+ years as a configuration and build analyst (SVN, GIT, Docker, Jenkins, Maven, SonarQube, Terraform, Ansible, Kubernetes, DevOps, JMeter).
- Having Good working experience on container-based architecture (Docker/Kubernetes).
- Experience in Docker image creation.
- Having Good Working experience and understanding of Server provisioning tools like Ansible to automate the Configuration Management Activities.
- Excellent knowledge and work experience in SCRUM based AGILE methodology and good experience in using, Azure DevOps boards and Redmine for project management and Defect tracking.
- Have good Interpersonal, Customer Relational Skills, Proven Communication, Organizational, Analytical, Presentation Skills and Leadership Qualities.
- Working knowledge of Azure data movement and transformation capabilities
- Collaborated with cross-functional teams to define, design, and ship new features
- Design, develop, test, deploy, and support new software solutions and changes to existing software solutions supporting a robust autonomous infrastructure
- Troubleshoot technical issues in a variety of application environments

	- Transition solutions from third parties to in-house supported solutions - Evaluate and improve server hardening based on the report from Security Engineer's team
--	--

Domain Experience	● Shipping - Ports, Cargo, Container & Yard Management
Technology Experience	● Cloud (Azure) : (Repos, Boards, pipelines, Test plans, Artifacts), web apps, keyvault, VM, firewall frontdoor, NSG, Azure data Factory (ADF), Databricks (ADB) , ADLSGEN2, Azure SQL, Azure Synapse Analytics, Azure, Terraform, Docker, AKS. ● Databases: MySQL, Oracle 11g/10g/9i, SQL Server
Operating Systems	● HP UNIX, Windows (XP, 7, 8,10).
Tools	● Checkmarx,mend,sonarqube,Azure portal, MSSQL,checkmarx,sonarqube,mend,jenkins, Putty, WinSCP, Azure Boards, Redmine
Languages	● Basic Power Shell Scripting, python, shell, Bash

Awards & Recognition	Won award internal to zasta enterprise pvt ltd ● Received "Hackathon participated award". ● Certificate of Participation in "National Science Olympiad" ● Certificate of Participation in "Blood Donation Camp"
----------------------	--

Professional Experience – Key Projects

IPOS (Integrate Port Operating System)	
Role – DevOps Engineer (Zasta enterprise pvt ltd)	From OCT 2023 to till date

Customer Details

This application software integrates all the core functions of site and terminal vessel operations such as registration, berthing and pilotage, general and dry cargo operations like load, discharge, internal movements and delivery, tracking of cargo, stuffing and de-stuffing of cargo and related invoicing. IPOS software helps ports in warehouse management, cargo inventory control, timely and accurate cargo accounting and automatic invoice generation. IPOS also features a very effective and easier EIS reporting and EDI messaging facilities. It is a planning and monitoring application for containers and equipment's used in yard and vessel. This highly efficient product is capable of performing several automated task like automatic generation of location for containers in yard and vessel according to best matched attributes of containers. It is also used for monitoring operations in yard and can be used for assigning equipment's like Quay Cranes, RTGs, RS to various locations. It also generates reports for bays of vessels and yard.

Responsibilities

- Building CI/CD pipelines and integration with SonarQube.
- Developing scripts for build, deployment, maintenance and related tasks using Jenkins, azure devOps, Docker, Maven
- Doing Production/Staging Deployments
- Setup DevOps process governance with internal projects
- Working on docker, pipeline to implement in DevOps
- Responsible for development of new CRs and requirement.
- Implementing and developing solutions enabling Development and Operations teams to build, deploy, monitor and test applications and environments
- Setting up and introducing Continuous Deployment processes and advising on best practice
- Working closely with offshore colleagues and providing support and advice on best practices for SCM and build automation
- Automating compilation, testing and archiving of builds and code changes
- Single point of contact between project teams and DevOps team
- Setup production environment at on site and getting sign off for UAT
- Targeting release items after discussing with Dev team. Maintaining the DB scripts for release
- Release management and SVN code control.

Education Summary

Degree	Institute	Major and Specialization	%
Bachelor	Gauthami degree collage	B.SC(MECS)	7.94
Intermediate	Sri gayatri junior college	M.P.C	60
SSC	SPR school of excellence	S.S.C	78

Accomplishments:

- Single point of contact between Project Management and IT groups from solution planning, sizing, to fulfillment

- Implemented third party solutions which enabled a near real-time order-based surveillance that highlighted potential intentions of market abuse activity
- Established large, high-performance IT teams to support IT regional operations

Certifications :

- Jspider fullstack developer
- Azure DevOps Engineer Expert

I hereby declare that all the information mentioned above is true to the best of my knowledge.

(Ch Nithin Kumar)
